

March 18, 2020

Dear Partner,

I am writing you today to first and foremost let you know that you are not alone.

During this time of turmoil and uncertainty the Pincus Family Foundation remains committed to our existing partners and will be working with other philanthropic and civic organizations to provide relief to those most in need of assistance.

As the COVID-19 global pandemic continues to evolve, it is imperative that we all come together and collaborate for humanity's sake.

Being mindful that health and safety are top priorities for everyone, the Foundation is immediately implementing the following accommodations: 1) Current or upcoming required reporting deadlines have been extended to June 1, 2020 and 2) Partners will be permitted to reallocate grant funds as needed for immediate COVID-19 relief. Changes to grant usage must be included in results report.

Although foundation staff are working remotely, we remain engaged and available if you need to contact us.

Yours sincerely,

A handwritten signature in blue ink that reads 'Danielle Y. Scott'. The signature is fluid and cursive, with the first name 'Danielle' being the most prominent.

Danielle Y. Scott
